lines connected with such exchange or exchanges respectively, and the location of each such exchange.

(3) Such map or plan in triplicate may be submitted to the Board, which may approve thereof or may change the point or points at which the company’s lines are to be connected with an exchange or exchanges of any existing telephone company or companies, and may change the exchange or exchanges of the existing telephone company or companies with which the company’s lines are to be connected, and may approve of the map or plan so changed.

(4) The Board, before so approving of such map or plan, shall give ten days notice to such existing telephone company or companies that the Board will hear the application for approval of such map or plan at a time and place stated in the notice.

(2) The existing telephone company shall construct and maintain a telephone line or lines from such exchange or exchanges to such point or points if the construction and maintenance of such line or lines are necessary for the purpose of so connecting the telephone line or lines of the company and keeping the same so connected with such exchange or exchanges.

(3) Every such existing telephone company shall forthwith upon such connection being made furnish and continue to furnish the company and its members, and others in the rural district served by the company, and the subscribers and non-subscribers of the existing telephone company in each and every of its exchanges, with telephone service to the same extent as if the telephone system of the company formed a part of each exchange with which such system is connected as aforesaid.

(4) If the company at any time forms an exchange the existing telephone company shall furnish connection between said exchange or exchanges of the existing telephone company and the exchange of the company in lieu of furnishing telephone service as aforesaid.
(5) The tolls or rates for telephone service pursuant to this Section
shall be either such flat rate or message rate as from time to time the Board may
determine.

(6) In the case of flat rate, the rate shall be that determined from
time to time by the Board for the particular exchange group to which the company’s
line is connected.

(7) In the case of message rate, the company shall pay to the
existing telephone company such sum not exceeding five dollars per year as the
Board may from time to time determine for each switchboard connection, and also
such sum as from time to time the Board may determine, but not exceeding five

exchange of the existing telephone company over the line of the company and the
sum of five cents for each additional five minutes or fractional part thereof.

(8) The company shall pay the existing telephone company for
messages sent beyond the exchange of the existing telephone company the like toll
rates, if any, as are payable by subscribers in such exchange for such messages.

(9) The existing telephone company shall collect and shall pay
over to the company monthly such sum as from time to time the Board may deter-

22 (1) Where the company desires to construct its telephone line and install its telephones within a district occupied in part by an existing company, it may apply to the Board, and if the Board, after such investigation as it deems necessary in the circumstances, is satisfied that the public interests in such district will be best served by the company, may order the existing company to withdraw its service from such district upon such terms and subject to such conditions as the Board determines.

(2) It shall be a term in any such order that compensation be paid to such existing company for any loss of its poles, wires and fixtures and other equipment occasioned by the withdrawal of such service.

R.S., c. 407, s. 41.

Reserve account

42 (1) For the purpose of renewing and replacing the telephone lines when the same have become unserviceable due to ordinary depreciation or for the purpose of repaying to the Minister of Finance, upon the abandonment of any telephone line or part thereof, any cash subsidy granted to any company by the Governor in Council in respect of such telephone line or part thereof so abandoned, every company that has been or is hereafter paid a subsidy pursuant to this Act, shall yearly on or before the thirty-first day of December deposit at interest in a chartered bank to the credit of an account to be called the “reserve account” of the company, a sum not less than ten per cent of the amount of such subsidy or such part thereof as has not been repaid to the Minister of Finance.

(2) The Board, upon the report of an inspector or plant superintendent that a company has executed repairs to or has renewed, replaced or reconstructed its telephone lines or telephone equipment, may, on the recommendation of an inspector or plant superintendent, make an order permitting the company to withdraw the whole or part of its reserve account to defray the cost of said repairs, renewals, replacements or reconstruction.

(3) Where it is established to the satisfaction of the Board that the telephone line of any company has suffered damage due to extraordinary casualty during the year preceding that for which the deposit to the reserve account is due, the Board may, on application of any company, relieve it from the making of said deposit but such relief may not be granted to any company more than once in any period of ten years.

(4) On or before the thirty-first day of December following the date on which a company was paid such subsidy the yearly sum to be so deposited shall be duly apportioned for that year and the due proportionate part thereof shall be paid into said account.

(7) Every such company shall, on or before the last day of January in each year, make a return to the Board of the amount to the credit of such account and such return shall be certified by the manager of the branch of the bank in which such account is kept.

(8) If any company makes default in complying with any of the provisions of this Section, the Board may order the existing telephone company to disconnect its line and keep the same disconnected from that of the company until the Board otherwise orders.

(11) Whenever the Board has authorized any existing telephone company to disconnect its line from the line of the company on account of the failure of the company to make the required deposits to its reserve account the Board, on receipt of a report from an inspector that such company has renewed and replaced its lines, may order the existing company to reconnect its line with the line of such company on such terms and conditions as may appear to the Board to be fair and just. MEETINGS

9 The first general meeting of the company, hereinafter called the statutory meeting, shall be held at such time within four months from the date of registration of the memorandum of association of the company, and at such place as the directors may determine.
10 At the statutory meeting any resolution may, if all the members of the company are present in person, be discussed and passed whether notice thereof has or has not been given in accordance with these articles.

11 Other general meetings of the company shall be held at least once in every calendar year, at such time and place as may be determined by the directors, provided that it shall not be necessary to hold a general meeting during the calendar year in which the statutory meeting is held.
