49.02 Distributed learning is a method of instruction that relies primarily on communication between students and teachers through the internet or other electronic-based delivery, teleconferencing, video conferencing or e-correspondence. It allows teachers, students, and content to be located in different, non-centralized locations so that instruction and learning can occur independent of time and place.

49.03 All distributed learning courses provided by a School Board shall be taught by certified teachers under contract with a School Board in a form approved under this Agreement.

49.04 The participation of a teacher in a distributed learning course shall be part of the teacher’s regular assignment and shall not infringe upon the teacher’s access to marking and preparation time, lunch periods, days pursuant to Article 25.05, School Year, or other such times provided to classroom teachers in the school.

49.05 The School Board shall provide that each school participating in a distributed learning course will ensure that a student supervision plan is in place. This plan shall include the name of the teacher or teachers responsible for ensuring that the students in the distributed learning class are supervised while at school.

49.06 Each receiving site shall designate a teacher to coordinate distributed learning within the school. The role of the coordinating teacher shall be, as required:

(i) to make resources available, when needed, and designate a place where resources are to be stored;

(ii) to monitor student progress with the understanding that the distributed learning teacher is responsible for student evaluation;

(iii) to coordinate the availability of tutorial help for students when requested;

(iv) to ensure that student assignments and evaluations are sent to the delivery site and distributed when returned, where appropriate;

(v) to maintain regular contact with the teacher delivering distributed learning;

(vi) to maintain accurate registration records for distributed learning students;

(vii) to coordinate evaluation schedules under the direction of the distributed learning teacher;

(viii) to assist in dealing with parental enquiries and concerns as they arise.
The assignment shall be part of the co-ordinating teacher’s regular assignment and shall not infringe upon the co-ordinating teacher’s access to marking and preparation time, lunch periods, days pursuant to Article 25.05, School Year, or other such times provided to classroom teachers in the school.

49.07 Where the same course is offered within the school and fits a student’s timetable, students shall require approval from the Director of Programs, or designate from the Board office, before taking the distributed learning course.

49.08 The maximum number of students permitted in a distributed learning course shall be twenty-five (25).

49.09 Teachers participating in distributed learning programs shall be provided with access to ongoing professional development in distributed learning. Consideration shall be given to providing professional development activities as part of in-service days pursuant to Article 25 of this Agreement. Necessary costs for School Board approved professional development activities shall be paid by the School Board and may be claimed subject to Article 60 Professional Development Fund of this Agreement.

49.10 (i) The structure of the school day for a teacher assigned to teach distributed learning, whether synchronous or asynchronous, may be different but equivalent to the length of school day for teachers assigned to teach non-distributed learning courses.

(ii) Any changes to the structure of the school day pursuant to (i) which impacts an individual teacher teaching distributed learning shall not occur without the agreement of the teacher. Should the Employer determine that the structure of the school day is to be different from what was assigned, should the distributed learning teacher decline the change, the Employer may still proceed with the change, in which case local provisions would apply to that teacher.

49.11 (i) Teachers in schools which transmit distributed learning courses shall have the option to request a distributed learning assignment.

(ii) A notice of assignment involving distributed learning shall be subject to assignment provisions in the Local Agreement.

Where the facilitator determines that all reasonable attempts have been exhausted to form a recommendation, the facilitator shall forward the dispute to the arbitrator as set out below.

(i) The decision of the arbitrator shall be final and binding upon all parties concerned.

(ii) The arbitrator shall not reach any decision inconsistent with the terms and conditions of this Agreement, nor alter, amend, or modify any of the provisions thereof.

SCHEDULE B
CLASS SIZE GUIDELINES POLICY

The Department of Education and Early Childhood Development agrees to maintain the existing class size guidelines for the 2017-18 and 2018-19 school years only.

The class size guidelines are:

1. Classes for grades Primary to Two are capped at 20 students, with flexibility. Creating combined classes or multi-age groupings are appropriate to meet this cap.

2. Classes for grades Three to Six are capped at 25 students, with flexibility. Creating combined classes or multi-age groupings are appropriate to meet this cap.

3. Combined classes have multiple grade levels in one room. The cap for a combined class shall be the cap for the lowest grade level.

4. Class caps are applicable to both English and French Immersion classes.

5. A class may exceed the class cap in the following circumstances:
   • School Capacity—When, in order to meet the class size target, the creation of an additional class or classes is necessary and the school does not have the space to accommodate the additional class(es), the class cap shall not apply.
   • Exceptional Circumstances—The class size cap can be exceeded in exceptional circumstances in order to accommodate issues of class configuration or class composition.

When a class exceeds the class cap the school is to review the class size and the reasons therefore with their School Advisory Council.

Note that these caps shall apply on September 30th of the current school year. It is understood that there may be enrolment fluctuations throughout the year after this time.

The Employer agrees that class caps apply to all classes, at the applicable level, in all School Boards.

Flexibility as per points 1. and 2. above is defined as not more than two (2) additional students per class.
