**Subject:** NSAC-DALHOUSIE Merger Legislation Bill 84

To whom it may concern,

I am sending this email to express my concerns about this incredibly quick decision for the NSAC-Dal Merger, through legislation Bill 84. The Government and Dalhousie are showing no concern over the faculty and staff of the NSAC.

This quick wrap up of this decision shows great disrespect towards NSAC employees, leading to a very bitter merge of employees to an institution that is dictating these negotiations.

What about our pensions? Long term service award that was promised to us?  
What else do you plan to take away from our benefits?

Respectfully submitted,  
Sarah Gatti-Yorke
