Subject: Bill 1

To whom it may concern,

I wanted to express my concern as well as my frustration over this move by our government officials to silence my voice as well as that of my co-workers, friends, family and representatives. I have been an LPN with NSGEU for the past three years and am worried about the impact about changing representation. I am worried that my voice has been silenced by this government and my rights as a worker have been stripped away. The bill as it is presented to the public is very misleading. It is not until you really look at Bill 1 do you truly understand the implications. I feel that this government is not listening to its people, including Ian Rankin, who dismissed my concerns in a very generic e-mail.
