**Subject:** freedom to choose

I am 47 and a non-smoker since finding e-cigarettes which avoid combusting smoke. Amend Bill 60, prevent the ban on flavored e-liquid! We ask that you allow us, the public, the freedom to choose our preferred delivery method for nicotine. Vaping, while not perfect, is by and large better for the public, both first-hand AND second-hand, than tobacco cigarettes; don't limit access to our one safer alternative!

This is very important to me.  
Robert Wilson
