

CARRIED.

Bill #87
Audiologists and Speech-Language Pathologists Act

CHANGES RECOMMENDED TO THE LAW AMENDMENTS COMMITTEE
BY THE MINISTER OF HEALTH AND WELLNESS

PAGE 3, paragraph 2(za) -

- (a) add after subparagraph (viii) the following:
 - (ix) collaborate with others, including caregivers, educators and health-care providers, regarding management, teaching and rehabilitative strategies for children and adults who have hearing or vestibular disorders or tinnitus,
- (b) renumber subparagraphs (ix) and (x) as (x) and (xi);
- (c) **subparagraph (x) (renumbered as (xi)), line 3** - delete "(ix)" and substitute "(x)".

PAGE 28, subparagraph 69(2)(g)(i) - delete and substitute the following:

- (i) prescribing, dispensing, fitting and verifying hearing aids for clients, other than hearing aids that are surgically implanted under the skin, for the purpose of addressing
 - (A) sensory hearing loss, with or without tinnitus,
 - (B) conductive hearing loss, with or without tinnitus, following clearance by a medical practitioner, or
 - (C) retrocochlear hearing loss, with or without tinnitus, if the client is concurrently managed by an audiologist or an otolaryngologist,
- and assessing hearing in clients for those purposes,
