Subject: Wage freeze

To whom it may concern:

How is that the government will not give pay raises to the citizens that work in the government or any job in Nova Scotia throughout Canada. However; they can come up with the money to let a number of refugees into our country if it isn't for the Canadian citizens which is who is paying for these refugees to come here with taxpayers dollars but as a taxpayer we are not entitle to a pay raise. Not sure how that even works. I just want to give my opinion and maybe you can speak on my behalf.
