> Dear committee

> I am writing you to express my opposition of bill 75. I am not a teacher and I am not in the union. I am a member of the public who is sickened by fair negotiation/arbitration processes being ignored. If passed, bill 75 will have negative effects on future negotiations and I am appalled that it's even being considered. This is not in the best interest of our children and for the people of Nova Scotia. Vote no.
