**Subject:** Bill 75

Hello; this legislation and process is unconstitutional and illegal and when the courts uphold our position, it will have been at the cost of taxpayer's expense. Watching P. McNeil spin out of control and continue to use 'I' when talking about the government is indicative of a ego maniacal bully and I am ashamed firstly that I voted Liberal in the last election which I will never do again, and that the Liberal MLAs are continuing to support him beyond common sense and future repercussions. It is a dark day in our province when we teachers teach about the democratic process while witnessing this sham. This government has galvanized a group of educated, passionate people who above all else, speak for the students entrusted to them daily. Shame shame shame. Not only has this backfired but it will never be 'back to normal' again. There is no 'normal'. P. McNeil's lack of intelligence as indicated by his continual use of 8-10 talking points, regardless of the question, coupled with his lack of decorum and patience, is obvious to all citizens of this province that he is not equipped to lead. Karen Casey should not hold this portfolio, nor any other that directly affects humans, but ultimately should be fired. Nowhere else in society could this degree of disrespectful, manipulative, deceitful behaviour be tolerated. Again; shame shame shame.

Christine L. Bullock
