

I am writing to voice my concerns regarding the amendment of the sale of Vape e-liquid.

I was a smoker for over 25 years, and if it wasn't for vaping, I would never have been able to quit.

I do not agree with the ban on flavoured juices, nor do I agree with the limitation on the nicotine amount. I am fearful that ex cigarette smokers who now vape, will start smoking cigarettes again.

Thank you for your time and consideration.

Kindest regards,

Melinda Crowe
